EXPERIENCE

Senior Software Developer

BCI, Banco Comercial e de Investimentos

May 2021 - Present

Maputo, Mozambique

- Lead the development and implementation of software solutions aligned with banking needs and client requirements.
- Collaborate with cross-functional teams to design, test, and improve solutions across the delivery lifecycle.
- Apply agile practices to help teams manage delivery timelines and maintain execution quality.
- Work alongside compliance and information security stakeholders to support regulatory alignment.
- Contribute across Objective-C, Java, Flutter, React, and Node.js within mobile, server, and architecture-led workstreams.

Senior Software Developer

Trifin Labs

Aug 2019 - Dec 2020

St. Petersburg, Florida, USA

- Built web platforms and digital tools, including solutions in the medical space and internal productivity systems.
- Contributed across frontend and backend delivery using JavaScript, React, and Node.js.
- Supported solution design, software architecture decisions, and cloud-oriented implementation work.
- Helped strengthen team workflow through leadership responsibilities, scrum participation, tooling improvements, and Ramp framework-related internal development.

Lead Software Developer

Marketing Link, Inc.

Apr 2018 - Jan 2019

Orlando, Florida, USA

- Led development work across a team of more than 10 projects.
 - Facilitated weekly team meetings and supported delivery planning.
 - Built mobile solutions using Expo and React Native.
 - Delivered e-commerce-focused development work for digital products.
-

Software Developer

Lucky Shot USA

Jul 2017 - Apr 2018

Orlando, Florida, USA

- Maintained multiple commercial websites for the parent company, 2 Monkey Trading.
 - Migrated services and data to AWS.
 - Built applications for theme park environments.
-

Google CS First Volunteer Tech Advocate

Cacti Council & Google CS

Nov 2016 - Feb 2017

Community and education outreach

- Volunteered on school visits and conventions to promote computer science education for students and teachers.
 - Supported outreach work tied to Google CS First initiatives.
-
